Mumbai, India · [+91 9588223319](tel:+919588223319) · misba8692@gmail.com · [LinkedIn](#) · [GitHub](#) · [HackerRank](#)

PROFESSIONAL SUMMARY

Results-driven **Full Stack Java Developer** with proven expertise in **Spring Boot**, **React.js**, **REST API development**, and **JWT-based authentication**. Experienced in building scalable, high-performance web applications with both **MySQL** and **MongoDB** database integration. Hands-on background in end-to-end project development — from responsive UI design using **CSS3** and **Material UI** to backend architecture. Completed an industry-grade Full Stack Java training with Tata Strive and Generation India. Seeking a Full Stack Java Developer role to contribute to enterprise-level product development.

TECHNICAL SKILLS

Languages:	Java, JavaScript, Python, SQL
Frontend:	React.js, HTML5, CSS3
Backend:	Spring Boot, Spring Security
Databases:	MySQL, MongoDB
Tools & Platforms:	Git, GitHub, Postman, IntelliJ IDEA, VS Code, Figma
Concepts:	OOP, Exception Handling, Responsive Design

PROJECTS

EmpFlow — Employee Management System | *Java, Spring Boot, Spring Security, React.js, MySQL, JWT* [Live](#) [GitHub](#) ↗

- Architected a secure full-stack **employee management system** using **Spring Boot** and **React.js**, implementing **JWT-based authentication** and **Role-Based Access Control (RBAC)** to enforce data security across all API endpoints.
- Designed and developed **RESTful APIs** with complete **CRUD operations**, integrating **MySQL** for reliable relational data storage and applying proper exception handling for production-grade reliability.
- Built an interactive analytics dashboard using **Material UI** and **Chart.js**, enabling real-time data visualization and improving management decision-making efficiency.

GovJobsSafari — Government Job Portal | *Spring Boot, React.js, MongoDB, Python, CSS* [GitHub](#) ↗

- Developed a full-stack government job portal using **Spring Boot** and **React.js**, integrating **RESTful APIs** for job listings, user management, and real-time job notification delivery.
- Implemented **MongoDB** with dynamic schemas to store and manage semi-structured scraped job data from multiple government websites, ensuring flexible and scalable data persistence.
- Automated job data ingestion using a **Python** web scraper with **BeautifulSoup** and built a responsive UI with **CSS** featuring advanced multi-criteria search and filtering.

TRAINING & CERTIFICATIONS

Junior Full Stack Java Developer Program *Nov 2025 – Feb 2026*
Tata Strive & Generation India — 16-week intensive training in Java, Spring Boot, React.js, REST APIs, MySQL, and database integration. [View Certificate](#)

Paper Presentation MULTINOVA 1.0, ICAIEHS-2025 [View Certificate](#)

Internal Hackathon Participant, 2024 [View Certificate](#)

EDUCATION

Bachelor of Engineering — Computer Engineering **CGPA: 7.81**
Anjuman-I-Islam's Kalsekar Technical Campus, Panvel, Mumbai University *2021 – 2025*
